4. Finally, you mentioned that you wish to get back to Clark regarding evidence of Soviet forced labor being used on the Pipeline. Even though we have a negative response, we should assure Clark that our collection and analytical resources will be "tweaked" to catch any indications. My own guess is that "of course" they will -- why not -- it's practically free labor and they have done it in the past.

5. Please let me know if there is anything else you would like included in your book.
